

Architecting the

COMPANY OVERVIEW

Connexr is a premier Enterprise MSP serving the healthcare sector. We architect intelligent care ecosystems that unify fragmented data, automate administrative burden, and improve clinical outcomes.

Operating as a long-term managed solutions partner, we take ownership of your digital health infrastructure, from securing interoperable data layers to deploying predictive clinical intelligence.

KEY DIFFERENTIATORS

- End-to-End System Ownership
- HIPAA/FHIR Governance
- Managed Clinical Operations
- AI-Driven Care Delivery

REPRESENTATIVE PROJECTS

INTEGRATION

Unified Data Platform

CHALLENGE

Fragmented patient data across 8 hospitals.

SOLUTION

Unified Data Layer with FHIR engine.

INTEROPERABILITY

Outcome

40% Faster Verif.

AUTOMATION

Intelligent Ops Fabric

CHALLENGE

Discharge delays & revenue leakage.

SOLUTION

Predictive Flow & Smart Staffing.

OPERATIONAL AI

Outcome

28% Revenue Gain

CORE SERVICES

- Unified Patient Data**
Single source of truth (FHIR).
- Clinical Intelligence**
NLP for patient insights.
- Operational Auto**
Intelligent orchestration.
- Predictive Analytics**
Real-time decision support.
- Secure Cloud-Native**
Scalable & compliant.

WHY CONNEXR?

- Specialized CoEs**
Dedicated Accelerators for AI & Cloud.
- End-to-End Ownership**
Accountability from start to finish.
- Global Delivery**
Efficient hybrid onshore/offshore.
- Innovation-Driven**
Future-proofing with AI & Auto.
