

Engineering the

COMPANY OVERVIEW

Connexr is an Enterprise Managed Solutions Partner (MSP) dedicated to engineering mission-critical software. We become long-term owners of your digital core, ensuring scalability and resilience.

For digital enterprises, we manage the full lifecycle, from decomposing legacy monoliths into cloud-native microservices to embedding Generative AI that differentiates your products.

KEY DIFFERENTIATORS

- End-to-End Ownership
- Governance & Accountability
- Managed DevOps Maturity
- Operational Partnership

REPRESENTATIVE PROJECTS

SOFTWARE

Cloud-Native Transform

CHALLENGE

Monolithic legacy system causing slow velocity.

SOLUTION

Strangler Pattern, Kubernetes & Automated CI/CD.

Outcome

10x Deploy Speed

MICROSERVICES

INTEGRATION

AI Product Features

CHALLENGE

Product differentiation plateauing.

SOLUTION

Embedded Intelligent Assistants utilizing GenAI.

Outcome

3x Adoption

GENAI

CORE SERVICES

- Cloud-Native Transformation**
Strangler pattern modernization.
- Automated DevOps Pipelines**
Zero manual gates CI/CD.
- Generative AI Integration**
Embedding AI assistants.
- Full-Stack Product Eng.**
Scalable React/Node/Go arch.
- DevSecOps & Compliance**
Security in release pipeline.

WHY CONNEXR?

- Delivery Credibility**
Proven modernization of legacy monoliths.
- Proven Outcomes**
10x velocity, 99.9% reliability.
- Long-Term Ownership**
We operate and optimize your digital core.
- Trust & Reliability**
Accountability for stability.
